Environmental Pollution **83** (1994) 387–389

CONTENTS OF VOLUME 83

Numbers 1 and 2

Foreword 1

Climate of the earth: An overview 3
M. B. MCELROY (USA)

Global Climate: Past and Present

Global climate change in the instrumental period 23
M. HULME & P. D. JONES (UK)

Climate change and human history. Some indications from Europe, AD 400–1400 . . 37
N. BROWN (UK)

Estimating the change of carbon in the terrestrial biosphere from 18 000 BP to present using a carbon cycle model 45
G. ESSER & M. LAUTENSCHLAGER (Germany)

The carbon budget of Canadian forests: A sensitivity analysis of changes in disturbance regimes, growth rates, and decomposition rates 55
W. A. KURZ & M. J. APPS (Canada)

Time series analyses of global change data 63
L. J. LANE, M. H. NICHOLS & H. B. OSBORN (USA)

Stratosphere–Troposphere Interactions

The stratospheric ozone layer—An overview 69
T. PETER (Germany)

Long-term changes in elemental deposition at the earth's surface 81
P. BRIMBLECOMBE (UK)

An approach for treating the uncertainties in the impact of climate change 87
Y. GU, J. W. CRAWFORD, D. R. PEIRIS & R. A. JEFFERIES (UK)

Agriculture's share in the emission of trace gases affecting the climate and some cause-oriented proposals for sufficiently reducing this share 95
K. ISERMANN (Germany)

Computer simulations of terrestrial carbon and atmospheric interactions 113
E. L. MUELLER & J. R. KRAMER (Canada)

Forest fire emissions in Portugal: A contribution to global warming? 121
A. I. MIRANDA, M. COUTINHO & C. BORREGO (Portugal)

Global Climate—Models and Predictions

On the scientific basis for global warming scenarios 126
R. S. LINDZEN (USA)

© 1993 Elsevier Science Publishers Ltd, England. Printed in Great Britain

Detecting climate-induced patterns using wavelet analysis 135
G. A. BRADSHAW & B. A. MCINTOSH (USA)

Sensitivity of the terrestrial biosphere to climatic changes: Impact on the carbon cycle . 143
P. FRIEDLINGSTEIN, J.-F. MÜLLER (Belgium) & G. P. BRASSEUR (USA)

Analysis and prediction of global climate temperature change based on multiforced observational statistics 149
C.-D. SCHÖNWIESE (Germany)

Impacts of Global Change on Terrestrial Vegetation: Carbon Dioxide, UV-B Radiation and Ozone

Plant responses to atmospheric CO_2 enrichment with emphasis on roots and the rhizosphere 155
H. H. ROGERS, G. B. RUNION & S. V. KRUPA (USA)

The impact of UV-B radiation and ozone on terrestrial vegetation 191
V. C. RUNECKLES (Canada) & S. V. KRUPA (USA)

Growth and physiology of northern red oak: Preliminary comparisons of mature tree and seedling responses to ozone 215
G. S. EDWARDS, S. D. WULLSCHLEGER & J. M. KELLY (USA)

Impacts of Global Change on Terrestrial Ecosystems: An Integrated Assessment

Assessment of the impact of rising carbon dioxide and other potential climate changes on vegetation 223
J. T. BAKER & L. H. ALLEN JR (USA)

Climatic sensitivity of temperate forests 237
J. L. INNES (UK)

The impact of climate change on the soil/moisture regime of Scottish mineral soils . . 245
A. M. MACDONALD, K. B. MATTHEWS, E. PATERSON &
R. J. ASPINALL (UK)

A coupled carbon-water-energy-vegetation model to assess responses of temperate forest ecosystems to changes in climate and atmospheric CO_2. Part I. Model concept . . . 251
N. T. NIKOLOV & D. G. FOX (USA)

Selected Bibliography 263

Announcements 265

Number 3

Announcement 267

Ambient ozone and crop loss: Establishing a cause-effect relationship 269
S. V. KRUPA (USA), M. NOSAL & A. H. LEGGE (Canada)

Retrieval of heavy metal ions from solution via ferritization 277
S. S. MANDAOKAR, D. M. DHARMADHIKARI & S. S. DARA (India)

As(III) removal from aqueous solutions using non-stoichiometric coprecipitation with iron (III) sulphate and filtration or flotation 283
V. NENOV (Bulgaria), A. I. ZOUBOULIS (Greece), N. DIMITROVA &
I. DOBREVSKY (Bulgaria)

Polynuclear aromatic hydrocarbon contaminants in oysters from the Gulf of Mexico (1986–1990) 291
T. J. JACKSON, T. L. WADE, T. J. MCDONALD, D. L. WILKINSON & J. M. BROOKS (USA)

Organochlorine contaminant assessment in great blue herons using traditional and non-lethal monitoring techniques 299
G. P. COBB, D. M. NORMAN & R. J. KENDALL (USA)

Effect of temperature and retention time on biomethanation of cheese whey-poultry-waste-cattle dung 311
M. DESAI, V. PATEL & D. MADAMWAR (India)

Growth and yield responses of spring wheat (*Triticum aestivum* L. cv. Turbo) grown in open-top chambers to ozone and water stress 317
A. FANGMEIER, U. BROCKERHOFF, U. GRÜTERS & H.-J. JÄGER (Germany)

Rates of removal of sediment associated radiocaesium from the Plynlimon experimental catchments, Powys, UK 327
P. J. P. BONNETT & P. G. APPLEBY (UK)

Landfill site restoration: The inimical challenges of ethylene and methane 335
J. E. TOSH (UK), E. SENIOR (South Africa), J. E. SMITH & I. A. WATSON-CRAIK (UK)

Distribution and coassociations of selected metals in seals of the Antarctic 341
P. SZEFER, K. SZEFER, J. PEMPKOWIAK, B. SKWARZEC, R. BOJANOWSKI (Poland) & E. HOLM (Sweden)

Trace metal accumulation by algae in Sepetiba Bay, Brazil 351
C. S. KAREZ, V. F. MAGALHAES, W. C. PFEIFFER & G. M. A. FILHO (Brazil)

The influence of sewage sludge applications to agricultural land on human exposure to polychlorinated dibenzo-*p*-dioxins (PCDDs) and -furans (PCDFs) 357
S. R. WILD, S. J. HARRAD & K. C. JONES (UK)

The effects of SO_2 fumigation on the nitrogen metabolism of aseptically grown spruce seedlings 371
A. D. PEUKE & R. TISCHNER (Germany)

Estimation of ambient chronic toxicity in a polluted creek system 379
A. A. KHAN, J. BARBIERI, F. SWEENEY & S. A. KHAN (USA)

Selected Bibliography 383

Announcement 386
